# MMEA D-G to cooperate with cops in 'sexual harassment' probe

**KUALA LUMPUR:** Malaysian Maritime Enforcement Agency (MMEA) director-general Maritime Admiral Datuk Hamid Mohd Amin will give his full cooperation to the police in the investigation into alleged sexual harassment associated with him.

MMEA yesterday said the dissemination of a police report lodged by a woman, who claimed that she was sexually harassed by Hamid, was of a personal nature with its own motive.

The allegations, said the agency, would not only tarnish his good name and reputation, but also affect his family and MMEA.

"Therefore, the director-general's office will cooperate and leave it entirely to the police to investigate."

MMEA also urged the public to refrain from spreading the police report or make speculation that could compromise the investigation process.

The *New Straits Times* yesterday reported that a woman had lodged a police report alleg-

ing sexual harassment against the director-general of an enforcement agency.

The 39-year-old financial consultant claimed she initiated contact with the individual in November last year when he was serving in another capacity within the same agency, to discuss investment prospects.

In her report lodged at a police

station in Shah Alam, she claimed that the man started making inappropriate remarks during their meeting at his Putrajaya office, including asking her "which sexual position she preferred".

The woman claimed that she stopped contacting the man, who is in his late 50s, because she concluded that he had no interest in the investment opportunities she presented.

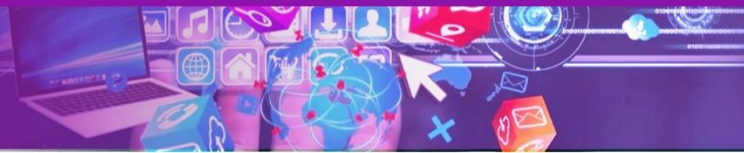

However, she claimed that he continued to text her invitations to hotels and karaoke sessions at night and asked her to spend the night with him.

The woman claimed she ignored the messages but in August this year, the man started sending her non-stop messages on WhatsApp.

He also sent her lewd pictures and videos.

As a result, the victim claimed she became depressed, affecting her self-esteem and work performance.

Selangor police chief Datuk Hussein Omar Khan has confirmed receiving a report from the victim, adding that the investigation would be conducted by Bukit Aman's Classified Crime Investigation Unit.

## Malaysia's first subfertility centre in operation in 2029

**PUTRAJAYA:** A National Subfertility Centre, which will be the first in Malaysia, will be built in Shah Alam, Selangor, next year, as part of the effort to deal with the issue of the declining fertility rate in the country's population.

Women, Family and Community Development Minister Datuk Seri Nancy Shukri said the centre, to be built at a cost of RM171 million is expected to be operational in 2029.

She said the centre will provide comprehensive fertility treatment and family well-being services, including functioning as a coordination centre for research with the latest treatment technology and specialist training in Malaysia.

According to her, the current subfertility treatment services offered at the subfertility clinic of the National Population and Family Development Board (LPPKN) can no longer meet demand.

"If the fertility rate continues to decrease at the current rate and no intervention is taken to deal with this situation, the

Datuk Seri  
Nancy Shukri

country's population is expected to reach a maximum number of 46 million people in 2071 before experiencing population shrinkage the following year," she told reporters after opening the 2023 National Population Conference (PERKKS 23) here Tuesday.

Nancy said the construction of the centre had been approved in the 12th Malaysia Plan (RMK12) and considered the project timely given the alarming decline in the fertility rate from 6.7 children per woman in 1957 to only 1.6 children per woman in 2022.

It is the lowest rate ever recorded, she said, adding that the decreasing fertility rate will accelerate the ageing process of

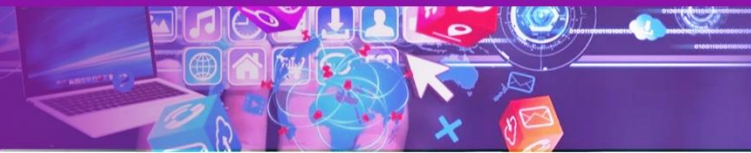

the population.

"This is expected to make Malaysia an ageing in 2044 when 15 per cent of the entire population is 60 years old and above," she said.

When asked about the main factor in the decline in fertility rate, Nancy said late marriage also contributed to it, as well as economic factors, including women who are ambitious and career-minded, as well as picky with their choice of partners, and some even choose to help and take care of family members.

At the event, a memorandum of understanding (MoU) was signed between LPPKN and MERCK Malaysia, a science and technology company, where MERCK gets to share expertise and technology with LPPKN, especially in relation to fertility, family planning and subfertility.

Regarding PERKKS 2023, Nancy said a special round table discussion was held to produce a resolution containing policy proposals and intervention measures to deal with the issue of the declining fertility rate of the national population. — Bernama

## Cops start probing sex harassment claim

**KUALA LUMPUR:** Bukit Aman has begun an investigation into a sexual harassment allegation against a government agency head, says Bukit Aman CID director Comm Datuk Seri Mohd Shuhaily Mohd Zain.

“The Special Investigation Unit is investigating the case. We will call up those involved to record their statements,” he said when contacted.

The case is being investigated under Section 509 of the Penal Code, which focuses on “word or gesture intended to insult the modesty of a person”.

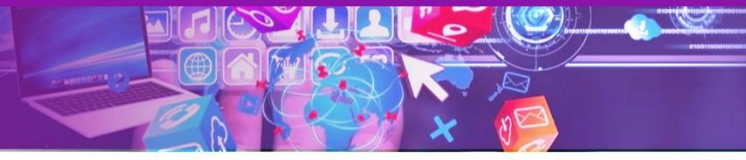

A financial consultant, in her 30s, is said to have lodged a police report last week, alleging that the suspect had been harassing her via WhatsApp.

An image of the supposed police report had gone viral on social media.

Apparently, the woman had initially approached the man for an investment opportunity in November last year before the harassment allegedly occurred.

She accused him of having asked her to go to hotels and karaoke centres a few times but she turned him down.

Since August, he became even more persistent in his advances and even sent her indecent photos, she claimed.

## Pusat Subfertiliti Negara pertama beroperasi 2029

**PUTRAJAYA:** Dalam usaha menangani isu penurunan kadar kesuburan penduduk negara yang terus merosot sejak lima dekad, Pusat Subfertiliti Negara yang pertama akan dibina di Shah Alam, Selangor tahun hadapan melibatkan peruntukan RM171 juta yang dijangka beroperasi pada 2029.

Menteri Pembangunan Wanita, Keluarga dan Masyarakat Datuk Seri Nancy Shukri berkata pusat itu menyediakan khidmat rawatan kesuburan dan kesejahteraan keluarga yang komprehensif termasuk berfungsi sebagai pusat koordinasi penyelidikan, teknologi rawatan terkini dan latihan kepakaran di Malaysia.

Beliau berkata perkhidmatan rawatan subfertiliti ketika ini yang ditawarkan di klinik subfertiliti Lembaga Penduduk dan Pembangunan Keluarga Negara (LPPKN) dilihat tidak

mencukupi untuk menampung permintaan.

Bercakap kepada pemberita selepas merasmikan Persidangan Kependudukan Kebangsaan 2023 (PERKKS 23) di sini semalam, Nancy berkata pusat baharu itu akan diuruskan oleh Kementerian Pembangunan Wanita, Keluarga dan Masyarakat (KPWKM) agar memberi kesan dalam meningkatkan kadar kesuburan penduduk negara.

“Jika kadar kesuburan terus menurun dengan kadar semasa dan tiada intervensi diambil bagi menangani situasi ini, penduduk negara dijangka mencapai jumlah maksimum sebanyak 46 juta orang pada 2071 sebelum mengalami penguncupan penduduk pada tahun berikutnya,” katanya.

Nancy berkata pembinaan pusat itu yang diluluskan dalam Rancangan Malaysia ke-12 (RMK12) bertepatan meman-

dangkan penurunan kadar kesuburan yang membimbangkan iaitu daripada 6.7 orang anak bagi setiap wanita pada 1957 kepada hanya 1.6 orang anak bagi setiap wanita pada 2022, kadar terendah yang pernah dicatatkan.

“Penurunan kadar kesuburan sekali gus mempercepatkan proses penuaan penduduk yang dijangka Malaysia akan menjadi ‘negara tua’ pada 2044, iaitu apabila 15 peratus daripada keseluruhan penduduknya berumur 60 tahun dan ke atas,” katanya.

Ketika ditanya faktor utama penurunan kadar kesuburan, Nancy berkata perkahwinan lambat bukanlah sebabnya tetapi pelbagai faktor menyumbang kepada penurunan itu antaranya kesan ekonomi, wanita yang bercita-cita tinggi dan berkerjaya, cerewet dengan pilihan pasangan, malah ada

yang memilih untuk membantu dan menjaga ahli keluarga.

Pada persidangan itu, satu memorandum persefahaman (MoU) dimeterai antara LPPKN dengan MERCK Malaysia, syarikat sains dan teknologi yang mendapat ruang untuk berkongsi kepakaran serta teknologi dengan LPPKN khususnya berkaitan bidang kesuburan, perancangan keluarga dan subfertiliti.

Mengenai PERKKS 2023, Nancy berkata sesi khas perbincangan meja bulat diadakan bagi menghasilkan resolusi yang mengandungi cadangan dasar dan langkah intervensi untuk menangani isu penurunan kadar kesuburan penduduk negara dan kesemua cadangan yang terkandung dalam resolusi itu akan menjadi pelengkap kepada inisiatif intervensi yang sedang dirancang KPWKM melalui LPPKN. — Bernama
