Intervensi seni bantu tingkat interaksi, keceriaan warga emas

Muhammad
Asyraf
Mohd Bakri,
Pusat Pengajian
Seni, Universiti
Sains Malaysia

Ketika ini Malaysia sedang menuju status 'negara tua' menjelang 2030 iaitu sekitar tujuh tahun dari sekarang. Justeru, tentu sahaja perancangan sudah mula dibuat oleh kerajaan bagi memastikan rakyat dapat disiajipagakan.

Secara umum, warga emas merujuk kepada mereka berusia 60 tahun ke atas. Berdasarkan angka itu, kebanyakan mereka bakal berhadapan risiko pelbagai penyakit, antaranya demensia atau nyanyuk.

Ita terjadi apabila berlaku penyusutan dari segi kemampuan minda, psikomotor, fungsi kognitif, emosi, malah dianggap sebagai satu daripada proses penuaan yang normal dan tidak dapat dielakkan. Nyanyuk tiada rawatan, tetapi simptom yang dialami boleh diatasi.

Umumnya, mereka yang nyanyuk memerlukan penjagaan teliti. Mereka tidak boleh dibiarkan sendiri dan memerlukan pengawasan. Justeru, ramai daripada mereka dihantar ke pusat jagaan oleh waris masing-masing. Antara sebabnya adalah pusat jagaan memiliki persekitaran yang lebih kon-

dusif dengan kelengkapan yang baik bagi warga emas.

Selain itu mereka memiliki kakitangan terlatih malah, ada yang diusahakan oleh agensi kerajaan, pertubuhan bukan kerajaan (NGO) dan swasta. Justeru, ia menawarkan kemudahan dan keselesaan yang jauh lebih baik berbanding di rumah.

Seni pengaruhi penjagaan pesakit

Bagaimanapun disebabkan nyanyuk tidak memiliki rawatan khusus untuk penyembuhan, antara kaedah penjagaannya, termasuk intervensi seni. Kaedah itu merujuk kepada bagaimana seni mempengaruhi penjagaan pesakit, persekitaran hospital, pembangunan komuniti dalam konteks perubahan dan lain-lain. Ia adalah kaedah yang sudah digunakan di seluruh dunia. Apa yang menarik adalah ia tidak menggunakan sebarang ubat-ubatan.

Sebelum ini, Pusat Pengajian Seni, Universiti Sains Malaysia (USM) sudah menjalankan satu penyelidikan berkaitan intervensi seni dengan mengaplikasikan penggunaan angklung terhadap warga

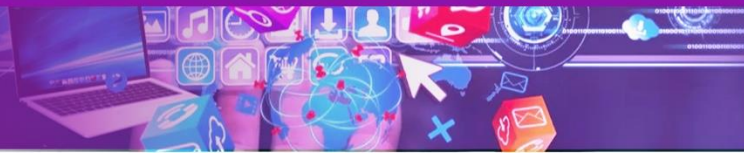

emas yang ditempatkan di pusat penjagaan.

Hasil daripada kajian itu mendapati penggunaan angklung dapat membantu kesejahteraan warga emas menerusi aktiviti yang dijalankan iaitu dari segi psikologi kerana ia mengeluarkan bunyi yang tenang. Ia juga membantu warga emas kerana berlaku perubahan emosi yang lebih ceria ketika bermain angklung, malah dapat berinteraksi dengan rakan ketika bermain.

Kajian itu juga mendapati menerusi intervensi angklung membantu fungsi psikomotor warga emas. Ia terlihat menerusi pergerakan tangan apabila mereka memainkan angklung.

Malah, ia membantu meningkatkan fungsi kognitif warga emas kerana menerusi aktiviti dalam kumpulan mereka dapat berinteraksi dan berkomunikasi. Kajian itu mendapati ia turut meningkatkan kepekaan dan penglihatan peserta terbabit.

Meskipun kajian ini masih pada peringkat awal, ia memperjelaskan bagaimana seni boleh membantu warga emas. Justeru, diharap lebih ramai penyelidik menjalankan kajian seumpamanya kepada kelompok ini.

Pusat jagaan warga emas resah sumbangan berkurangan

Johor Bahru: Pengurusan sebuah pusat jagaan warga emas mendakwa bekalan beras bagi menampung keperluan penghuni di situ semakin terhad sejak kelakangan ini.

Pengurus Pusat Jagaan Warga Emas Nur Ehsan, Norijah Bidin, berkata sejak lebih sebulan lalu, sumbangan beras yang diperoleh daripada orang ramai juga berkurangan hampir 50 peratus berbanding sebelum ini.

Beliau berkata, pusat itu yang memiliki tiga cawangan termasuk di Kempas dan di Ledang, Muar, di sini memerlukan 60 kilogram bekalan beras pada setiap hari.

Namun, pihaknya tidak menolak kemungkinan faktor kenaikan harga beras selain bekalan beras putih tempatan (BPT) sukar diperoleh menghalang penyumbang untuk menderma.

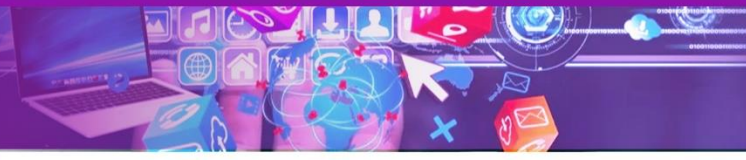

"Pusat jagaan ini memberi perlindungan kepada 167 penghuni termasuk warga emas dan orang kurang upaya (OKU) mental.

"Ada penghuni kami yang memiliki waris turut memberi sumbangan pada setiap bulan, namun seramai 60 penghuni kami termasuk muafaf tidak berwaris.

"Kebiasaannya kami menggunakan enam hingga lapan paket beras 10 kilogram bergantung kepada menu masakan sarapan pagi, makan tengah hari mahupun makan malam," katanya.

Norijah berkata, pihaknya mengalukan sumbangan beras bagi menampung keperluan penghuni.

"Sebelum ini kami kerap menerima sumbangan beras mahupun lampin pakai buang, namun kini semakin berkurangan. Sumbangan juga akan dibahagikan bagi keperluan penghuni di tiga cawangan kami," katanya selepas Program Khidmat Masyarakat Bersama Pusat Jagaan Nur Ehsan anjuran Memis Sdn Bhd, di sini, semalam.

Wanita kena tingkat peranan bantu keluarga

Oleh **Dr Tengku Norbaya
Tengku Azhar**
bhrencana@bh.com.my

Sejak kebelakangan ini, Malaysia digegarkan dengan krisis kenaikan harga barang mendadak, kemerosotan nilai ringgit dan terkini kekurangan bekalan beras putih tempatan di pasaran.

Krisis berlaku ini menjadikan kehidupan masyarakat semakin tertekan kerana ketidakcukupan sumber kewangan dalam perbelanjaan harian, terutama kos untuk membeli barang makanan dilihat meningkat secara mendadak.

Laporan daripada Jabatan Perangkaan menunjukkan kenaikan perbelanjaan makanan dan minuman bukan alkohol daripada RM783 pada 2019 kepada RM841 pada 2023.

Kenaikan kos sara hidup, harga barang dan kekurangan bekalan makanan ini sebenarnya turut mempunyai kaitan dengan golongan wanita. Wanita terutama bergelar ibu, menjadi nadi di dalam keluarga memainkan peranan besar dalam memastikan kelangsungan hidup keluarga, terutama anak-anak.

Wanita lazimnya dikaitkan sebagai 'pengurus rumah tangga' yang cekap kerana memiliki keupayaan dan arif untuk mengurus perbelanjaan

harian keluarga. Justeru, kebijaksanaan mereka akan membantu mengurangkan beban kewangan dihadapi keluarga ketika berdepan krisis ketika ini.

Perubahan hidup pasca COVID-19

Isu makan di luar atau di rumah sering dikaitkan dengan komitmen ibu atau wanita. Peningkatan kos makan di luar, termasuk penginapan seperti dilaporkan dalam Kaji Selidik Perbelanjaan Isi Rumah (HES) 2023, iaitu sebanyak RM831 daripada RM631 pada 2019 dikaitkan dengan perubahan hidup masyarakat pasca pandemik COVID-19.

Apabila golongan ibu kembali bekerja ke pejabat, komitmen mereka untuk urusan rumah tangga seperti penyediaan makanan semakin berkurangan. Namun, ketika menghadapi krisis ekonomi dan makanan, budaya makan di rumah antara kaedah dapat mengurangkan beban kewangan di samping memberi manfaat kepada keluarga.

Wanita lazimnya bijak memilih makanan memiliki nilai ekonomi kepada keluarga dan baik untuk kesihatan seisi rumah.

Pemilihan makan di rumah mampu mengurangkan pengambilan makanan segera di kedai yang ternyata tinggi kandungan lemak, garam dan gula.

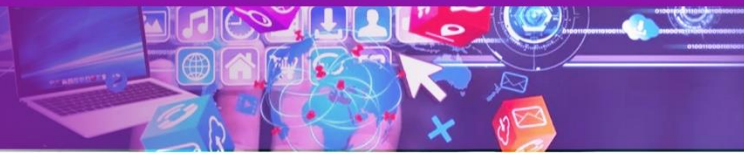

Ini juga menjadi satu langkah baik bagi mengurangkan risiko penyakit kronik seperti kencing manis, darah tinggi dan kolesterol. Perubahan budaya makan dan memasak di rumah adalah alternatif yang baik untuk keluarga, walaupun ia agak mencabar bagi segelintir wanita.

Namun, cabaran ini mudah diserap wanita jika berpengetahuan tinggi dan sentiasa belajar untuk menghidangkan menu terbaik, selamat, sihat dan murah kepada keluarga.

Anak yang dididik dengan budaya makan makanan sihat tidak akan memilih makanan kurang sihat, seperti tinggi kandungan gula atau berkarbonat.

Perlu diakui budaya memasak dan makan di rumah bersama ahli keluarga mampu mengeratkan hubungan kekeluargaan, menjimatkan dan mesra kesihatan. Justeru, wanita sebagai 'suri di dapur' perlu bijaksana mengatur penggunaan sumber makanan seharian supaya penjimatan dapat dicapai.

Hari ini, majoriti masyarakat terkesan akibat krisis ekonomi dan makanan. Namun, sekecil-kecil sumbangan boleh dilakukan adalah bermula dari rumah. Justeru, wanita seharusnya terus memainkan peranan lebih bijak dalam mengurus perbelanjaan rumah tangga, sekali gus menjadi pemangkin kepada lahirnya masyarakat sejahtera, sihat dan selamat.

Fatimah: Inadequate awareness on value of education one of factors leading to child marriage

KUCHING: Insufficient awareness on the value of education is one of the contributing factors to child marriage, said Women, Childhood and Community Wellbeing Development Minister Dato Sri Fatimah Abdullah.

According to her, teenagers marrying at a young age can be attributed to students choosing to drop out because they lack interest in schooling.

"I've interviewed these dropouts – there are individuals who dropped out from school since Primary 6, Form 2 and Form 6.

"When I asked them why they chose to drop out, they said they simply didn't like schooling," she said.

When this happens, Fatimah said they were told to just get married as another resort for their future, referencing the old cultural practice of choosing marriage over formal education.

"In the past – or at least during my mother's time – girls were considered 'unworthy' by the age

Dato Sri
Fatimah
Abdullah

of 15. However, things are slowly changing. What we (ministry) are more concerned about now are teenagers opting to drop out from school," she said.

She said this after officiating the Gifted Arts Gallery held at Plaza Merdeka here in conjunction with the Mid-Autumn Festival, when asked to comment on the statistics from the Department of Syariah Judiciary Malaysia citing Sarawak as having the highest number of child marriages.

Regarding the issue of child marriages, Fatimah said the

community needs to be taught the importance of education.

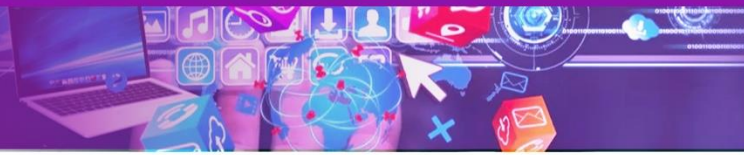

"In some communities even if the parents have tried to encourage their children to stay in school at least until Form 5, these teenagers decide to drop out instead.

"As they are too young (underage) to get a job, they end up getting married. These are some of the contributing factors for child marriages," she said.

On the issue of teenage pregnancies, she said cases in Sarawak have reduced by 38.09 per cent since 2016 to 2022.

She also mentioned the ongoing efforts of the Sexual Education Awareness and Advocacy Programme, which involves collaborating with schools and has been crucial in addressing teenage pregnancy.

"We have been addressing this issue since 2016 and we have seen teenage pregnancy cases reduce but we still need to keep going," she said.

BALIK PULAU: Forty children spent about half an hour on a pickup truck after floodwaters started inundating their kindergarten in Jalan Kampung Masjid, Teluk Kumbar.

Several villagers, including the truck owner, came to the rescue upon learning about the ankle-deep water at Pasti Darul Ulum Kindergarten.

They were assisted by firemen from the Seri Balik Pulau fire station, who helped carry the children to safety during the 10am incident yesterday.

The children, aged between four and six, returned to their classrooms after the water subsided at about 10.30am.

Earlier, three teachers told the children to either stand or sit on chairs and tables in the classrooms when rainwater started flowing in after the rain, which began at about 7am.

With the water level rising, panic swept the classrooms, and some of the children cried out loud.

A State Fire and Rescue Department spokesman said the department received a distress call at about 10am, informing them that the children could be in danger.

"We immediately sent a team to the location and helped evacuate the children to higher ground, in this case, the pickup truck at the site.

"There were 25 boys and 15 girls in total," he said, adding that no casualties were reported during the incident.

The spokesman said rainwater had overflowed the nearby river and drainage, resulting in flash floods in the Bayan Lepas areas that saw water rise to 0.6m at one point.

heavy downpour.

Among the affected places were Kampung Blok K, Kampung Batu Maung and Jalan Permatang Damar Laut in the southwest district.

In Kampung Batu Maung, several villagers said they have had

enough of dealing with the perennial issue.

Housewife Hanisah Yahya, 37, said she and her family members were tired of cleaning their house whenever it rained heavily.

"We know flash floods will hit whenever it rains. We have to

be prepared.

"It was the worst this time around, as the floodwaters reached my knees after only an hour of heavy rain.

"If I remember correctly, this is the seventh occurrence this year," said the mother of three in Kampung Batu Maung.

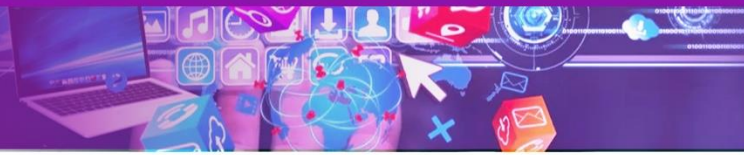

Another villager, Suhaimy Saidin, 43, said he was fearful of another flood.

He said the village would be flooded only after more than five hours of rain the previous time.

"But it's different this time, as the place would be inundated after just one hour of non-stop rain.

The Star previously reported that the monsoon season was approaching and that various agencies and authorities across the country were preparing for floods.

Equipment is being prepared, personnel are being retrained and put on standby to help victims.

CCTV footage exposes evil stepbrother

KAJANG: A stepbrother to a four-year-old girl who drowned in a swimming pool at an apartment in Bangi earlier this month has been detained by the police.

Kajang OCPD Asst Comm Mohd Zaid Hassan said the 27-year-old was arrested on Sunday after police scrutinised CCTV footage of the scene.

"Based on our checks, we discovered the man was near the pool when the incident occurred.

A report of the incident was lodged by a medical officer from Hospital Serdang, who treated the victim on Sept 13.

"Investigation showed the victim drowned in a swimming pool at about 3pm. She was initially brought to a clinic before being sent to Hospital Serdang.

"She died the next day after receiving treatment, and the case was initially classified as sudden death," said ACP Mohd Zaid.

"The case is classified under Section 31(1) of the Child Act 2001.

"We urge those with information to contact investigating officer Insp Muhammad Azrul Nizam Zainal Abidin at 016-998 5730 or the nearest police station," he added.

Hurdles for PWD

BY LEE KIAN SENG
newsdesk@thesundaily.com

PETALING JAYA: "Have some consideration for persons with disabilities (PWD)." This is the plea by non-governmental organisation OKU Rights Matter project officer Ng Lai Thin.

"PWD have been struggling to navigate through old as well as new buildings due to the lack of facilities that are available to them."

"They are also forced to navigate through man-made obstacles, which have caused injuries or fatalities."

Ng said some 16% of the population are categorised as PWD and around 8.7% of the country's 33 million population are aged 60 and above.

"Malaysia has not introduced any institution responsible for the oversight, management and enforcement of compliance with the legislation that has been enacted."

Lawyer Kokila Visani Vadiveloo said few laws mention the requirements to build facilities for disabled persons, mainly the Uniform Building (Amendment) By-Laws 2021 and

Disabled struggle to access old as well as new buildings due to lack of facilities for physically-challenged

the Uniform Building By-Laws 1984 (UBBL).

"Bylaw 34A of the UBBL makes it mandatory for all public buildings to make facilities available to disabled persons. On Sept 20, 1990, an amendment was made to the UBBL at the 35th National Council of Local Government.

"The amendment introduced section 34A in the UBBL, making it compulsory for all new buildings to provide access to disabled persons to get into, out of and move easily within the buildings.

"This by-law also covers buildings (except shophouses) completed before 1993. These buildings were required to be modified by 1996 to comply with the Malaysian Standards - MS1183, MS1184 and MS1331 - unless the local authority allowed owners to vary or be exempted from the requirements."

Kokila said the authorities can act by issuing a warning notice, imposing a fine, ordering the

building to be made accessible to PWD and prohibiting the use of the building if the owners do not provide adequate and suitable facilities for them.

She said the Housing and Local Government Ministry is responsible for ensuring that facilities for PWD are provided as required by the UBBL.

Universiti Pendidikan Sultan Idris social communication student Tan Suet Yee, 24, who is a PWD, expressed concern about the lack of facilities for the disabled at the university.

"The lift for the disabled at the Faculty of Language and Communication broke down for about six months, causing much inconvenience for me to move around the faculty."

Tan, a person with dwarfism, also said the university hostel did not have furniture suitable for her size, and this too had been an issue during her stay there.

University urged to provide more facilities for disabled

She said the university has since taken initiatives to provide the disabled with easier navigation, such as hostel rooms located on the ground floor for disabled so that they do not have to use the stairs.

"But the buses provided by the university which we take to go to classes and nearby places are not disabled-friendly as the steps are too steep for me."

Tan urged the university to install more facilities for the disabled at the hostels as well as maintain the existing ones to minimise the risk of injuries to the disabled.

Contacted by *theSun*, a person who identified herself as the public relations officer of Malaysian Institute of Architects but did not give her name, declined to comment on why there was still a lack of facilities for the disabled.

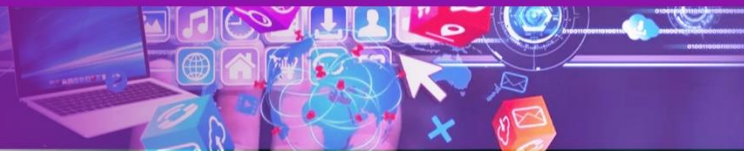

She referred *theSun* to a practising architect who, too, declined to comment on the matter.

Kahwin muda kerana kurang minat belajar

Kurang kesedaran tentang nilai pendidikan merupakan antara faktor perkahwinan kanak-kanak: Fatimah

Oleh Marlinda Mardzuki

KUCHING: Kurangnya kesedaran tentang nilai pendidikan merupakan salah satu faktor kepada perkahwinan kanak-kanak, kata Menteri Pembangunan Wanita, Kanak-Kanak dan Kesejahteraan Komuniti Dato Sri Fatimah Abdullah.

Menurut beliau, remaja yang berkahwin pada usia muda boleh dikaitkan dengan pelajar yang memilih untuk berhenti sekolah kerana kurang minat untuk belajar.

"Saya telah menemu bual mereka yang tercicir ini. Terdapat individu yang tercicir dari sekolah sejak dari tahun enam, tingkatan dua dan tingkatan enam."

"Apabila saya bertanya kepada mereka mengapa memilih untuk berhenti sekolah, mereka mengatakan tiada minat lagi ke arah itu (bersekolah)," katanya.

Beliau berkata demikian ketika ditemui media selepas merasmikan 'Gifted Art Exhibition' sempena Festival Pertengahan Musim Luruh 2023 di Plaza Merdeka di sini, semalam.

BERBAKAT: Fatimah merakam kenangan bersama antara kanak-kanak berkeperluan khas yang terlibat dalam pameran seni lukis pada majlis perasmian 'Gifted Art Exhibition' sempena Festival Pertengahan Musim Luruh 2023 semalam.

Fatimah menambah, kebanyakan remaja terbabit memilih untuk berkahwin sebagai satu lagi pilihan masa depan mereka berbanding mendapatkan pelajaran.

"Dahulu, atau misalnya semasa zaman ibu saya, kanak-

kanak perempuan dianggap 'tidak layak' untuk belajar pada usia 15 tahun.

"Bagaimanapun, keadaan perlahan-lahan berubah. Namun apa yang kita (Kementerian) lebih bimbang sekarang ialah masih ada sebilangan re-

maja memilih untuk berhenti sekolah," ujarnya.

Justeru katanya, masyarakat perlu dididik berhubung kepentingan pendidikan demi masa depan yang lebih terjamin terutama bagi generasi muda masa kini.

“Saya telah menemu bual mereka yang tercicir ini. Terdapat individu yang tercicir dari sekolah sejak dari tahun enam, tingkatan dua dan tingkatan enam.”

Dato Sri Fatimah Abdullah
Menteri Pembangunan Wanita, Kanak-Kanak dan Kesejahteraan Komuniti

"Kita perlu mendidik masyarakat kita, jangan berhenti sekolah walaupun sudah bersalin."

"Ramai remaja membuat keputusan untuk berhenti sekolah apabila sudah bersalin," katanya.

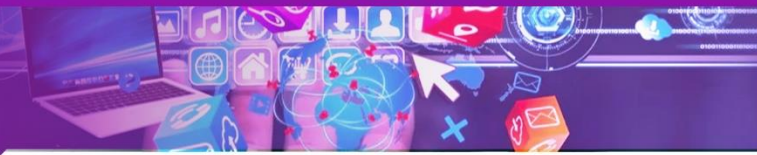

Bercakap mengenai majlis itu, Fatimah memuji usaha Persatuan Kebajikan dan Pembangunan Bakat Insan Istimewa Kuching (KATSN) kerana mampu menganjurkan pameran sebegini bagi mempamerkan bakat kanak-kanak berkeperluan khas dalam bidang seni lukis.

"Ini merupakan tahun kedua dan kali kedua KATSN menganjurkan acara ini dan ia amat membanggakan."

"Apa yang kita lihat di pameran menunjukkan kebolehan kanak-kanak berkeperluan khas kita. Kementerian tidak nampak kecacatan mereka, sebaliknya kita melihat kepada kebolehan kanak-kanak itu," katanya.

Terdahulu, 13 artis berkeperluan khas dari KATSN menyumbang kepada karya seni yang dipamerkan di Galeri Seni Gifted sempena Festival Pertengahan Musim Luruh 2023 yang diadakan di Plaza Merdeka.

Mereka ialah Alister Sim, Carson Chang, Damian Clarke, Jia Rong Lee, Bertrand Arthur, Kelvin Li, Brian Lin, Rachel Lee, Darryon Leong, April Lee, Dave Hwang, Steven Hwang dan Xavier Jee.
